

Charli XCX - Famous

Tom: Db

(com acordes na forma de Capostrate na 1ª casa C)

Bored on Friday night Spinning 'round just like I'm hypnotised, oh oh
Need some neon lights Wanna feel like I'm electrified, so help me out

Get your boyfriend's car Come and pick me up, oh
Let's take it for a ride What trouble can we find?

One night, and we're gonna come and crash the party.
Weren't invited but we're feeling so outrageous Just like we're famous.

Got one night, and we're gonna come and get it started.
Now we're falling down the stairs We act so shameless.
Come on let's lose control!

One night, and we're gonna come and crash the party.
Weren't invited but we're feeling so outrageous Just like we're famous.
Got one night, and we're gonna come and get it started.
Now we're falling down the stairs We act so shameless Just like we're famous.

Ah ah ah oh oh Oh ah ah ah oh oh oh Ah ah ah oh oh Just like

we're famous.

Blown up like balloons Purple glitter flying through the air, oh oh
Sweat drips from the roof And you know we're Lucy in the sky of diamonds

Music playing loud Tripping through the crowd, oh
Put your sunglasses on Don't care if we look dumb

One night, and we're gonna come and crash the party.

Weren't invited but we're feeling so outrageous Just like we're famous.

Got one night, and we're gonna come and get it started.

Now we're falling down the stairs We act so shameless.
Come on let's lose control!

One night, and we're gonna come and crash the party.
Weren't invited but we're feeling so outrageous Just like we're famous.

Got one night, and we're gonna come and get it started.
Now we're falling down the stairs We act so shameless Just like we're famous.

Ah ah ah oh oh Oh ah ah ah oh oh oh Ah ah ah oh oh Just like we're famous.
