

Cheap Trick - Stiff Competition

```
Tom: D
                                                               bridge
                                                               (B )Oh (A ) (B )right (A ) (B )We have so much fun (A )when
   kev: A
tuning: standard E A D G
                                                               we're toget(B )her
                                                               (A )When we're toget(B )her (A )When we're toget(B )her
main riff
                                                               interlude
                                                               (D )Now (Bb ) (D ) (Bb ) I looked (D )hard in your (Bb )eyes
                                                               It was (D )love at first (Bb )sight
Intro: play riff four times
                                                               It took me (D )minutes you're still (Bb )waiting waiting for
                                                               your (D )turn
             play riff 8 times
first verse
                                                               your (Bb )turn it won't be long
Stiff competition If I go up you take me higher
                                                               repeat entire song
Stiff competition And when I'm down you take me higher
                                                               second verse lyrics
                                                               Stiff competition
There's (E) stiff competition (D) (A) all over the (D) (E) I work hard everyday of my life
world (D ) (A ) (D )
                                                               Stiff competition
({f E} )I screw you you screw ({f D} ) ({f A} )me They screw us here we go Get it up you take me higher
(D) (E) again
(D) (A) (D)
                                                               outro- play riff until fade
