

Chelou - Like a Dream

Tom: G

And hold me closer submit me to your powers of seduction
 It's not magic though it feels that way
 And I believe that it was love at least something of the sort
 Can't decide if it was real or just make believe

Like a dream I a-woke to find myself alone
 Like a dream I a-woke to find myself alone

Like a dream I a-woke to find myself alone

And I admit that I have been preoccupied with material things

That I wanted but did not need

But like your touch, your company subtle things reassure me

What's the point in possession when it's empty

Like a dream I a-woke to find myself alone
 Like a dream I a-woke to find myself alone

Acordes
