

# Chet Faker - Release Your Problems

Tom: Bb

(com acordes na forma de Gb )

Capostrate na 4ª casa

Oh, you taken all I own

You feeding something

Make me start to see in the night

Won't you, help me, roll back home

The feet is stumbling

Walk me down in the street in the light

Walk on or die

I will never know

Lone with mind, won't take my

Eyes to see the break in your ways

Release your problems, release your problems

Release your problems

Lone with mind, won't take my

Eyes to see the break in your ways

Release your problems, release your problems

Release your problems

Feels downhill wore it by your

I've been poisoned

Reach around the streets and open fire

Feels a lot, don't leave the light on

I could be the warmest soul if I like though

What a lie, what a night

What a night

Don't lie to my face
