

## Chimera - Tiago

```
tom:
                                                                 Don't let me down
Intro: Eb C Bb Ab
                                                                     Ah
                                                                 I'm breaking through
                                                                     Eb
                                                                 With one step get closer
  Save me
                                                                       Bb
                                                                 And in time we'll be one
Don't let me down
                                                                 Eb
I've taken enough
                                                                 Two arms around us
                                                                 Db
                                                                 Don't let me down open up
  Set free
                                                                 I'm speeding to you
   Bb
I'm breaking it down
                                                                 [Interlúdio] Eb C Bb Ab Eb C Bb Ab
  Bb2
I won't make a sound
                                                                  [Terceira Parte]
Used to love me, in your soul
  Bb
                                                                                     C
                                                                 This wall divides us in your head
Gonna feel it coming round
     Fm
                                                                   Give me an answer that's no answer
Just don't let go
                                                                                  C
Through it all I'm gonna be there
                                                                 Leave all behind us left unsaid
                                                                 Give me an answer that's no answer
Don't let me down
I won't let you go
                                                                 Don't leave me
   Db
               Bb
                           Ah
And we know in time we'll be one
                                                                                      Ah
                                                                 Bh
                                                                 Pull it down as the night goes
Two arms around us
                                                                 Free it all
Don't let me down
                                                                 Dh
                                                                 Don't let me down
Bh
Open up
                                                                 I won't make a sound
I'm speeding to you
                                                                   Ab
                                                                 Let me through
