**Eb**

[Refrão]

And nothing hurts anymore, I feel kinda free  
 We're still the kids we used to be  
 I put my hand on the stove, to see if I still bleed  
 And nothing hurts anymore, I feel kinda free  
 We're still the kids we used to be  
 I put my hand on the stove, to see if I still bleed  
 And nothing hurts anymore, I feel kinda free

[Primeira Parte]

So pretty the way that we're changing  
 We're busy, tied up our mistakes with  
 I don't know where we go from right here  
 We'll be somebody new next year  
 And I don't mind it, wherever we're riding  
 I'm gonna ride with, riding, riding, yeah  
 Play the song on the back of my mind

[Refrão]

I put my hand on the stove, to see if I still bleed  
 And nothing hurts anymore, I feel kinda free

 And nothing hurts anymore, I feel kinda free
