 I don't have my license yet
 But I think it might be fun to drive with you
^C
 You live far and I don't have a car
 But I think it might be fine and the sky
^F
 Looks so blue
^C
 We'd fill up with gas and we move pretty fast
 Is that something you'd like to do?
^C
 It's crazy I know but I wanna go
^G ^F
 And I was hoping that you would too
^F ^G
 'cause when the moon comes up at night
^C
 I'm just thinking of you
^F ^G
 And when the stars shine this damn bright
^C
 All I think of is you

^F ^G
 And I think it's starting to rain
^C ^C ^F
 And you're all that goes on in my brain
^G ^C
 So maybe it'd be nice to get away
^C ^G
 Petals are floating and I think I'm choking
^F
 On air
^C ^G
 Raindrops get bigger and I'll start to
 Shiver
^F
 But darling, you're still there
^F ^G
 'cause when the moon comes up at night
^C
 All I think about is you
^F ^G
 And when the stars shine this damn bright
^C
 All I think about is you
^F ^G
 And I think that it's starting to pour
^C ^C ^F
 But you're all that I wanted and more
^F
 So maybe
^G ^C
 Just maybe you'd open the door
