

Chris Cornell - Wide Awake Acoustic

Tom: F

If you hear the acoustic version you will hear this descending riff he plays. While playing the Dm it sounds like he grabs the low F and open Low E string at the end of each bar. He does this between verses as well. There are a few different ways to get a good sound for this.

Verse:

Dm F
 You can a look a hurricane right in the eye
 Dm F Dm
 1200 people dead or left to die
 Dm Bb
 Dm
 Follow the leaders, we're in an eye for an eye we'll all be blind

Refrão -----
