

# Chris Stapleton - Last Thing I Needed First Thing This Morning

tom:

E  
The postman delivered  
A "past due" bill notice  
E The alarm clock rang two hours late  
E The garbage man left all the trash  
A On the sidewalk  
E And the hinges fell off of the gate  
A And this morning at breakfast  
A I spilled all the coffee  
E And I opened the door on my knee  
A Oh the last thing I needed  
E The first thing this morning  
B Was to have you walk out on me

E Last night you came home late  
B And I knew you'd been drinking  
Bb By that old mellow look on your face  
E I thought, "It don't matter  
B 'Cause it's the holiday season"

And you fill such a big empty space  
A And I laid down beside you  
A And I wanted your lovin'  
E Because your love makes my life complete  
A But the last thing I needed  
E The first thing this morning  
B Was to have you walk out on me

A So excuse me for lookin'  
Gbm Like my world just ended  
A And excuse me for lookin'  
Gbm Like I just lost my best friend  
A And excuse me for livin'  
A And being forgiving  
Gbm So just go on if you want to be free

A But the last thing I needed  
E The first thing this morning  
B Was to have you walk out on me

A But the last thing I needed  
E The first thing this morning  
B Was to have you walk out on me
