

# Chris Stapleton - More Of You

Tom: A

Intro: A, F#m6, A, F#m6, E, E, E, E

When I think of you and the first time we met  
 And I heard the sound of your sweet gentle voice  
 My heart took me over and gave me no choice

And right then I knew  
 It makes me want more of you  
 Again and again

I fall more in love with you  
 Than I've ever been

From the moment you wake me up  
 Till you kiss me goodnight

Everything that you do  
 It makes me want more of you

solo base: A, F#m6, A, F#m6, E, E, E, E

When I look at you now that years have gone by  
 I think of the memories that time can't erase

And all of the smiles that you've brought to my face  
 You're love's been so true

It makes me want more of you  
 Again and again

I fall more in love with you

Than I've ever been

From the moment you wake me up  
 Till you kiss me goodnight

Everything that you do  
 It makes me want more of you

solo base: A, F#m6, A, F#m6, E, E, E, E

When I leave this earth you'll be holding my hand  
 And it gives me comfort to know you'll be there

And I'll thank the lord for the love that we share  
 You're heaven to me

It makes me want more of you  
 Again and again

I fall more in love with you  
 Than I've ever been

From the moment you wake me up  
 Till you kiss me goodnight

Everything that you do  
 It makes me want more of you

Everything that you do  
 It makes me want more of you
