

Chris Stapleton - More Of You

Tom: A

Intro: A, F#m6, A, F#m6, E, E, E, E

When I think of you and the first time we met
 And I heard the sound of your sweet gentle voice
 My heart took me over and gave me no choice

And right then I knew
 It makes me want more of you
 Again and again

I fall more in love with you
 Than I've ever been

From the moment you wake me up
 Till you kiss me goodnight

Everything that you do
 It makes me want more of you

solo base: A, F#m6, A, F#m6, E, E, E, E

When I look at you now that years have gone by
 I think of the memories that time can't erase
 And all of the smiles that you've brought to my face

You're love's been so true
 It makes me want more of you
 Again and again

I fall more in love with you

Than I've ever been

From the moment you wake me up
 Till you kiss me goodnight

Everything that you do
 It makes me want more of you

solo base: A, F#m6, A, F#m6, E, E, E, E

When I leave this earth you'll be holding my hand
 And it gives me comfort to know you'll be there
 And I'll thank the lord for the love that we share

You're heaven to me
 It makes me want more of you

Again and again
 I fall more in love with you
 Than I've ever been

From the moment you wake me up
 Till you kiss me goodnight

Everything that you do
 It makes me want more of you

Everything that you do
 It makes me want more of you
