Makin' bad decisions is my middle name
Someone come pull me out of my pain
                 C Em
I broke her heart, and man what a waste
She asked me to dance I said "I could not"
                       C
Never did I think that'd I'd get caught in those lovely hands
And beautiful arms
                          C
         Em
And I, I am broken, I, I'm sending hope
Hopin' she would come back, back,
for a better day
{\sf G} C {\sf Em} G And I, I need your love and I,
              Em
    C Em
Wanna feel your touch,
Should've never put you on the side and out of my way
Fell in love but got caught up
```

```
Thought she hated my stinkin' guts
That's why I didn't talk to her, for days
                           Em
I came back and she asked why her heart was broken,
     Em G
She would cry I remember every single second
     Em Am
Of that night.
{\color{red} G} C {\color{red} Em} G C {\color{red} Em} And I, I am broken, I, I'm sending hope
Hopin' she would come back, back,
for a better day
                    Em
And I, I need your love and I,
Wanna feel your touch,
Should've never put you on the side and out of my way
Now that she's not around,
that smile brings me down
Now that she's not around,
                    C Am
now that she's not around
Makin' bad decisions is my middle name
```
