

Christina Aguilera - Lift Me Up

Tom: E

So the pain begins
 As the music fades
 And I'm left here with
 With more than I can take
 If you lift me up
 Just get me through this night
 I know I'll rest tomorrow
 And I'll be strong enough to try

When the static clears
 And all is said and done
 I will realize
 That we all need someone

If you lift me up
 Just get me through this night
 I know I'll rest tomorrow
 And I'll be strong enough to try

So when you see me crashing
 And there's nowhere left to fall
 Will you lift me even higher
 To rise above this all

If you lift me up
 Said if you lift me up

E Abm [x4]

Said if you lift me up
 Will you lift me higher

When you see me crashing
 And there's nowhere left to fall
 Will you lift me even higher
 To rise above this all

If you lift me up
 Said if you lift me up
 If you lift me up
 Just get me through this night
