

Chvrches - Graffiti

Tom: E

I'm writing to ask you; did you achieve all you wanted to do?

Before we were dragged up, something was different and nothing was new

How did you see me? We didn't know what we wanted to be

When did we move on? I didn't feel it, nobody told me

[Pré-Refrão]

Time to kill

Was always an illusion

Time stood still

And now we never will, never will

[Refrão]

We wrote our names along the bathroom walls

Graffitiing our hearts across the stalls

I've been waiting for my whole life to grow old

And now we never will, never will

And now we never will, never will

And now we never will, never will

Standing in streetlights, we didn't know wrong, didn't know right

Making a mess and running in circles, getting in fights

We were just kids then, we didn't know how and didn't know when

Taking our chances, calling it off and starting again

And now we never will, never will

And now we never will, never will

And now we never will, never will

And now we never will, never will

And now we never will, never will

Never will

Never will
