              C
Well I don't know how else to say
          F
In a diffrent way

But why don't you just fade away
                              C
'Cause there's a battle going on
          F
Down south of Babylon
                   G
So why don;t you just fade away
