

City And Colour - Underground

tom:

Intro: A B A B

A
Abandoned and lamenting
The wasted days were spent running from ourselves

A
Aimlessly ramblin'
But hey man, at least we've got our health

A B
Oh, but it ain't enough just to be alive

A
We've gotta lean into the love a little
Before we die

Gbm
So tell me what you need

A
You bring me to my knees
And I'm tired of running

B
I'm tired of moving life around
Gbm
How do we deal with this?

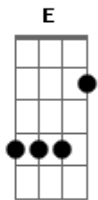

A
Treat each day as the gift it is
E
I don't wanna be running
B
Until I'm underground

(A B)

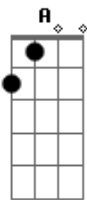

A
So let's just forget the unforgiving presence of death
B
And live wild and free

A
Godless or not
B
You can't let the fear control your body
A
Like a great Canadian darkness
