

Cloud In Tears - Empathy

tom:

Intro: Dbm B A

I wish I could tell them all the things, I felt

But nothing seems fair enough to me

I wish they could understand how it feels

To hurt every time you try to breathe

And I don't know why

I keep holding up

I keep holding on

And I

Fight so hard to keep everything alive
Everything inside me carrying on

(Dbm B A)

I wish they could tell me pleasing things, for once

But all I hear is judgement, oh please

I wish I could smile everyday, for real

Instead of this I cry for anything

And I don't know why

I keep holding up

I keep holding on

And I

Fight so hard to keep everything alive
Everything inside me

It eats me alive, from inside out

And kills every chance that I have to find myself

I hate these things I felt

And when I'm alone, it's worse than before

Because I don't have any control at all

Of all these things I felt

And I don't know why

I keep holding up

I keep holding on

And I

Fight so hard to keep everything alive

Everything inside me

Carrying on

Acordes
