

Cloud In Tears - I'll Go With You

```
tom:
Intro: F Am Dm F Am Dm
Walking through the city
      Dm
On my own
All the stores are closed, but lights are on
      Am
Felt that I was lost 'till I found you
The best of us were drawn in pink and blue
                     Gm
Around, inside, outside, I?m coming through
Turning into someone completely new
I?ll go with you
I can?t think of anything else I would do or be without you
Around, inside, outside, I?m coming through
Now I?m coming through to you
(F Am Dm)
                       Αm
Chatting with some friends about the time
When we were all kids and still alive
Were we alive?
                    Am
Laughing at those jokes as they were new
                   Am
Now I know I'm better off with you
Around, inside, outside, I?m coming through
                                                             (Bb Dm)
