

Colbie Caillat - Fearless

Tom: D

(intro) D Bm G A

If that's the way you love
 You've got to learn so much
 If that's the way you say goodbye

Then this is how it ends
 And I'm alright within
 You're never going to see me cry
 Cause I've cried

So go on, go on and break my heart, I'll be okay
 There's nothing you can do to me
 That's ever going to burn me

So go on, go on and leave my love out on the street
 I'm fearless, better believe I'm fearless, fearless

So oh woh oh woh oh woh

If this is how it hurts
 It couldn't get much worse
 If this is how it feels to fall

Then that's the way it is
 We live with what we miss
 We learn to build another wall
 'Til it falls

So go on, go on and break my heart, I'll be okay

There's nothing you can do to me
 That's ever going to burn me

So go on, go on and leave my love out on the street
 I'm fearless, better believe I'm fearless, fearless

So oh woh oh woh oh woh

If it's between love and losing
 To never have known the feeling
 And I'm still sad we've loved

And if I end up lonely

At least I will be there knowing
 I believe in love

Go on, go on and break my heart, I'll be okay
 I'm fearless, better believe I'm fearless, fearless

Go on, go on and break my heart, I'll be okay

There's nothing you can do to me
 That's ever going to burn me

So go on, go on and leave my love out on the street
 I'm fearless, better believe I'm fearless, fearless

So oh woh oh woh oh woh
 (I'm fearless)

So go on and leave my love
 (go on and leave my love)

Go on and leave my love
 (you know that it was not enough)

Go on and leave my love
 You better believe I'm fearless, fearless
