tom:

Intro: G D Em7 Cadd9
G D Em7 Cadd9

Run away with the one

That's gon' be there 'till it's done

Take the blame for the gun

That's gon' be there for your son

If it's me, I don't know

But at least I'll make her smile

Would you lie here for a while?

Would you lie here 'til I die?

When I look at you

I can see right through

And you know it's true

So you love me too

Girl, I always knew

It was me and you

And you'll know it's true

When you say "I do"

You know I'ma say "I do" (you know)

'Cause every time I leave I be missin' you

(I be missin' you)

And I know you gon' say "I do" (oh)

'Cause I look up in your eyes

I can tell it's true (true)

On a winter night, I ran away so far

I ran away with you

We slept inside my car

Run away with the one

That's gon' hold you when you're numb

Takes you home, when you're drunk

Holds your hair, when you're throwin' up

If it's you, I don't know

But at least I have some time

Just to lie here by your side

Acordes

Countin' all the stars tonight

Girl, I always knew (uh)

I see me and you (uh)

Leaving in a coupe (yeah)

Painted baby blue (blue)

Baby, I need you (uh)

You're like a dream come true (you are)

And yeah, I always knew (yeah, I knew)

That it would be us two

Took the long way home

Bumpin' all our songs

Smokin' cigarettes

And feelin' up her dress

I always miss you the most

When I'm smoking dope

They say "Love kills you slow"

That's why I'm with you though

Run away with the one

That's gon' be there 'till it's done

Take the blame for the gun

That's gon' be there for your son

If it's me, I don't know

But at least I'll make her smile

Would you lie here for a while?

Would you lie here 'til I die?

When I look at you (you)

I can see right through (right through)

And you know it's true (it's true)

So you love me too (too)

Girl, I always knew (I always knew)

It was me and you (me and you)

And you'll know it's true (it's true)

When you say "I do" (I do)
