

# Cold War Kids - Can We Hang On

tom:

Intro: D G D G D A

I've come here nine times asking you do not make it ten

I'm peeling off all the armor that protected my skin

Apologize, I'm laying down my ego to rest

Could you be mine for-ever just in case it exists?

I think about the old days

What we've been through to survive

Do we get better with time?

Tell me I'm wrong

Looking back to the start, who we were when we met

This box of pictures tells a story when we fight, we forget

And I can barely recognize us, back then we were obsessed

Can we cut out this madness and get back to the best?

I think about the old days

What we've been through to survive

Do we get better with time?

Tell me I'm wrong

I'm looking to you always

We follow the same guiding light

Passing like ships in the night

Can we hang on?

Can we hang on?

Can we hang on?

Can we hang on?

Can we hang on?

D

This could've gone either way if

One of us had walked

If I'd gone off, and you caved in, and we broke it off

I'd be lost, I'd be chasing some broke down dream

I'd be bored to death

But we cannot stay forever young and out of our heads

Out of our heads

I'll think about tomorrow

If I can get through tonight

I know that we'll be alright

Can we be strong?

I'm looking to you always

Even though we're like ships in the night

Don't you go passing me by

Can we hang on?

Can we hang on?

Can we hang on?

Can we hang on?

Can we hang on?

You can find it

If you're dying to live

If you want to know the secret, hang on

You can find it

If you're dying to live

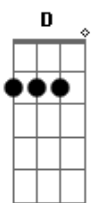

If you want to know the secret, hang on

You can find it

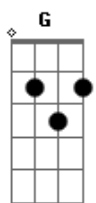

If you're dying to live

If you want to know the secret, hang on
