

# Coldplay - Birds

Tom: C  
Intro: 2x: Am F C

Am F  
been standing in the corner  
C  
studying the lights  
Am F C  
the dreaming of escape will keep you up at night  
Am F  
but someone had put the flares up  
C  
and got me in the rays  
Am F C  
so... I guess I'd better stay  
F  
'uh uh no come on' you say  
G  
it's a fool's gold thunder  
F  
it's just a warring rain  
G  
don't let the fears just start 'what if  
F  
I won't see you again'  
G F  
around here you never want to sleep all night  
G  
so start falling in love, start the riot and  
Am F C  
come on rage with me  
Am  
we don't need words  
F C  
and we'll be birds  
Am F C  
got to make our own key  
Am F  
only got this moment  
C  
you and me, guilty of nothing

F  
but geography  
G  
come on and raise it  
F  
come on and raise this noise  
G  
for the million people  
F  
who got not one voice  
G  
come on it's not over if you  
F  
mean it say loud  
G  
come on all for Love  
Am F C  
out from the underground, away with me  
Am F C  
we don't need words  
Am F C  
close your eyes and see  
Am  
and we'll be birds  
F C  
flying free  
Am F C (solo)  
holding on in the mystery  
Am F C G  
fearless go oh oh oh oh oh oh  
Am F C G  
fearless together  
Am F C G  
when you fly won't you  
Am F C G  
won't you take me too?  
Am F C G  
in this world so cruel  
Am F C  
I think you're so cool
