

# Coldplay - Birds

Tom: C  
Intro: 2x: Am F C

Am F  
been standing in the corner

C  
studying the lights

Am F C  
the dreaming of escape will keep you up at night

Am F  
but someone had put the flares up

C  
and got me in the rays

Am F C  
so... I guess I'd better stay

F  
'uh uh no come on' you say

G  
it's a fool's gold thunder

F  
it's just a warring rain

G  
don't let the fears just start 'what if

F  
I won't see you again'

G F  
around here you never want to sleep all night

G  
so start falling in love, start the riot and

Am F C  
come on rage with me

Am  
we don't need words

F C  
and we'll be birds

Am F C  
got to make our own key

Am F  
only got this moment

C  
you and me, guilty of nothing

F  
but geography

G  
come on and raise it

F  
come on and raise this noise

G  
for the million people

F  
who got not one voice

G  
come on it's not over if you

F  
mean it say loud

G  
come on all for Love

Am F C  
out from the underground, away with me

Am F C  
we don't need words

Am F C  
close your eyes and see

Am  
and we'll be birds

F C  
flying free

Am F C (solo)  
holding on in the mystery

Am F C G  
fearless go oh oh oh oh oh oh

Am F C G  
fearless together

Am F C G  
when you fly won't you

Am F C G  
won't you take me too?

Am F C G  
in this world so cruel

Am F C  
I think you're so cool
