

## **Coldplay - Biutyful**

```
And it's so biutyful
                                                                                    D Bm G A
                           tom:
                                                              And you're so biutyful
               Eb (forma dos acordes no tom de D )
Capostraste na 1ª casa
                                                              I hope that you get everything you want in this biutyful life
                                                              Watermelon moon, so happy you're alive
I hope that you get everything you want in this biutyful life
                                                              And feel like a river, finally arrived at sea
Change for your pocket, someone for the night
I hope they name you a rocket and take you for a ride for free Cause when you love me, love me
And if they tell you you're nothing maybe you'd explain
                                                              When you love me, lov? me, love me
To me, you're the summer sun after the rain
                                                              When you love me, love me, love me
           D
And you were there when I needed
                                                              When you love me, love me, love me
                                                               I know I'll be
Something for the pain, you see
                                                                 N.c
                                                              On top of the world, man
When you love me, love me, love m?
                                                                 N.c
                                                              On top of the world
When you love me, lov? me, love me
                                                              And it's so biutyful
When you love me, love me, love me
                                                                                    D Bm G
                                                              And you're so biutyful
When you love me, love me, love me
                                                              And it's so biutyful
I'm nowhere else
                                                               [Final] A Bm G
I'm on top of the world, man
On top of the world
```
