

Coldplay - Moving To Mars

Tom: **Ab**

Intro: **Fm**

Verso 1:

Somewhere up above the stars

The wreckage of a
universe floats past

Somewhere up above my heart

A tiny little seed is sown

A government is overthrown

Who knows when we'll
be coming home at last

Refrão:

And I heard it on the radio

That one day we'll be
living in the stars

And I heard it on a tv show

That somewhere up above

And in my heart

They'll be tearing us apart

Maybe moving us to mars

We won't see

the earth again

In these seconds just

remain unchanged

Verso 2:

8 to 9, 9 to 10

We are meeting for
the first time

We might never meet
again you and me

We are meeting for
the first time

Can't you see

7-6-5-4-3

We are meeting for
the first time

Singing this space symphony

Solo: **Db Ab Eb Db**

They'll be tearing us
apart really moving us to mars

Past the satellites and stars

really moving us to mars

Acordes
