

# Coldplay - X Marks The Spot

Tom: C

So I reach for it

Stare into darkness, staring at doom  
My heart go boom, bo-boom boom  
Stare into darkness, admit defeat  
Coming home and I'm finding no peace

And I know, and I know and I know  
I know I'm out of luck  
And I know, and I know and I know  
I know what you've got

I put my hands up to the sky, feeling like  
I've got a rocketship that I want to ride  
Put my hands up to the sky, it's alright  
Wherever you are, I'll find that treasure

(So I reach for it) Wherever you are, I'll find that treasure  
(So I reach for it)

Stare into darkness, staring at doom  
You make my heart go boom, bo-boom boom

Superhero, a masterpiece  
Been innocent but a sinner in me

And I know, and I know and I know  
I know I'm in luck  
And I know, and I know and I know  
I know when I'm not

I just put my hands up to the sky, feeling like  
I've got a rocketship that I want to ride  
Put my hands up to the sky, it's alright  
Wherever you are, I'll find that treasure

I just put my hands up to the sky, feeling like  
I've got a rocket, eyes on the prize  
I put my hands up to the sky, I'm gonna find  
Wherever you are, I'll find that treasure

(So I reach for it) Wherever you are, I'll find that treasure  
(So I reach for it) Wherever you are, I'll find that treasure  
(So I reach for it) And I know, and I know, and I know I know  
what I've got  
(So I reach for it) X marks the spot

## Acordes
