

Confetti - Motive

tom:

Intro: Dm C G

[Primeira Parte]

I know girls like you like guys like me but not forever
 You just need a little somethin' in between
 To make the next man jealous
 You wanna say that you want me with something serious
 I?m on the wild side, you need some experience
 But all you really want, really want is a really good story
 Whatever

[Pré-Refrão]

Baby, slow down
 You could never catch the lime like me
 Put your phone down and snap back to reality

[Refrão]

What's the motive you got in your head?
 I met the monster that's under your bed
 Oh, I know I?m not your type
 So what you doing here tonight?
 What's the motive you got in your head?

[Segunda Parte]

It's lookin' like you try hard
 I can see a mile far, you're too extra
 I see you puttin' on for the camera

And I'll be damned it don't impress you
