Intro: Em Cadd9

Em                                  Cadd9
You lose control when you hold too tight
           Em                           Cadd9
But turn your head long enough to let it bite
                 Em                              Cadd9
'Cause faith left me staring at the ceiling through the night
                 Em       Cadd9
It's freaking me out.

           Em                      Cadd9
And when I fell asleep it plagued my dreams
               Em                        Cadd9
And thirty bits of glass had become my teeth
             Em                           Cadd9
They were breaking each and every time I tried to speak
             Em          Cadd9
It's freaking me out.

                 G       Cadd9
You're freaking me out.
                 G     D     Eb
You're freaking me out.
         Em                           Cadd9
And I could run like a coward for the door
                 G
But I'll never get out,
                 D     Eb
You're freaking me out.

               Em                Cadd9
You lose your mind if you lose control
                 Em                      Cadd9
It makes you feel ashamed for the hearts you stole
             Em                      Cadd9
And now your own heart's scared of an attack
                     Em       Cadd9
'cause you can't give them back.
                 Em                    Cadd9
You're stressing me out when you prove me wrong,
                 Em                         Cadd9
you're wearing me out 'cause I've searched so long.

Throwing it all away,
                  Am         C       D
I threw it all and I threw it all away.
                        Am       C           D
Well the best part is not knowing just what I threw away.
               Am  C     D
I threw it all away, hey.
Am C D  Am C D
Oooooh. Oooooh.
