Acordes

Why do I even try?

(play the rest of the song just like the i showed you above)

Another rainy day We sat inside by the radiator Watching old black and white films Where everybody sang

You played in my solitude Didn't get dressed 'til two The rain says all I wrote this song on my guitar But it didn't turn out right So we just connected in other ways So easy, I must say Why am I so shy around you?

Why am I so shy around you? Why do I take care to astound you? Why do I even try? Why am I so shy around...? Why am I so shy?

Why do I take care...? Why do I even try?
