Intro: E  G  D  C

[Primeira Parte]

E                 G
Got a gipsy soul, I'm a rebel and rouge
D                   C
And I'm always on the run
E                             G
With a?fire?inside I ain't?ever gonna die
D                   C
I'm a locked and?loaded gun
E                             G
When the matches strike and the gasoline lights
D             C
It's only just begun
E                     G
One thing I learned is you can watch it all burn
D                       C
But the flame ain't ever done

( E  G  D  C )

[Pré-Refrão]

E                         G
Raise 'em up a little higher, your lighters
D          C
Outlaws and outsiders

( E  G  D  C )

[Refrão]
                    E           G
Some call me a renegade, the enemy
D                         C
Throw your hands up if you feel the same
E  G         D          C
Whoa, living life at the edge
                    E           G
Just say what you wanna say, or walk away
D                       C
I'll stand tall when there's hell to pay
E                   G
Ain't no power higher
          D           C
We're the outlaws and outsiders

( E  G  D  C )
( E  G  D  C )

[Segunda Parte]

E                             G
I was born in the dark with a fearless heart
D                        C
And a taste for the other side
E                     G
I was crazy ass kid, all the shit I did
          D                   C
```

```
I'm amazed that I'm still alive
E                                 G
They thought I'd change with a little bit of age
          D                 C
But you know I never will
              E                 G
Takes too much time to walk a straight line
D                   C
I don't have time to kill

( E  G  D  C )

[Pré-Refrão]

E                             G
Raise your fists up higher, you fighters
D          C
Outlaws and outsiders

( E  G  D  C )
