

## **Counting Crows - Colorblind**

Tom: C

This is a song designated for piano, but since I figured out the  $% \left( 1\right) =\left( 1\right) \left( 1\right)$ 

piano part, I figured I'd let all guitarists have a shot at it...

That entire riff is repeated for the entire song...the chords are

Am for the first measure...then  $\ensuremath{\mathsf{F}}$  for the last three measures...

This part sounds so much better on piano than it does on guitar, but

oh well!

Peace...Love...and Counting Crows FOREVER!!!-Sharon
