Tom: D
Intro: Guitar 1 plays riff, while guitar 2 plays chords

```
                G                          G

   Em                      C           A2
```

Verse, Guitar 1 tacet:
G
Waiting for the moon to come and light me up inside
Em                              C           A
And I am waiting for the telephone to tell me I'm alive
Well I heard you let somebody get their fingers into you
It's getting cold in California
I guess I'll be leaving soon

Chorus:

D
Daylight fading
Em7           C
Come and waste another year
Em7           C              G             D
All the anger and the eloquence are bleeding into fear
D                              Em7           C
Moonlight creeping around the corners of our lawn
Em            A2                  C
When we see the early signs that daylight's fading
D
We leave just before it's gone

Repeat intro

Verse: where indicated, gtr. 1 plays the fills below

She said "everybody loves you"
she says, "everybody cares"
But all the things I keep inside myself,
                        (w/ fill 1)
they vanish in the air               (w/ fill 2)

If you tell me that you'll wait for me
I'll say I won't be here
I want to say goodby to you
Goodbye to all my friends
Goodbye to everyone I know
