Verse 1:
                                                               Well, darling if it's shit came out
                                                                                                     (Riff 2)
 The gentle man caller in the blue suede shoes
                                                               Then I suppose that it's shit went in
He don't know what to do - he just wants to look good for you
                                                                Even though I couldn't say I've been the places that you've
 So he rushes in to tell you what he did today,
                                                               You know he made my heart real strong even if he made my head
But he can't think of what to say. I think you'll listen
                                                               real thin
anyway
                                                               Chorus 3:
Chorus 1:
                                                                        I want to have a good time just like everybody
          He wants to have a good time just like everybody
                                                                        And I don't wanna fall apart
          He doesn't want to fall apart
Verse 2:
                                                               0h...
                                                                           I wanna have a good time just like everybody else
 You watch him as he stutters over what to say
                                                               And I don't wanna fall apart this time so would you please
It's just a little game you play. It's no easier for you some
                                                               invite me in
                                                               Outro Chorus: (repeat as necessary)
            You wish that you could tell him it'll be okay
                                                                       I really love the red haired girls
But you feel a little shy these days cause everybody goes away
                                                               I'm just another boy from Texas
                                                                  Come on and take a spin I got a brand new set of wings
          You just wanna have a good time just like everybody
