

# Counting Crows - Hanging around

Tom: **C**  
Intro: **F C G**

VERSES: **F C G**

She sat right down on the sofa  
She said "Where have you been? I've been waiting for you."  
And last night I had something so good  
These days get so long and I got nothing to do

CHORUS: **F C G**

I've been hanging around this town on a corner  
I've been bumming around this old town too long  
I've been hanging around this town on a corner  
I've been bumming around this old town for way too long

We spend all day getting sober  
Just hiding from daylight, watching TV  
We just look a lot better in the blue light  
You know I gotta get out, but I'm stuck so tight, weighed by  
the chains that  
keep me

Hanging around this town on a corner

I've been bumming around this old town too long  
Hanging around this town on a corner  
I've been bumming around this old town for way too long

GUITAR SOLO CHORDS: **F C G**

This girl listens while the band plays  
She says "Where have you been? I been lying right here on the  
floor"  
I got all this time to be waiting  
For what is mine to be hated what I am after the light has  
faded

Hanging around this town on a corner  
I been bumming around his old town too long  
I been hanging around this town on a corner  
I been bumming around this old town for way too, way  
I been hanging around this town on a corner  
I been bumming around this old town for way too long  
I been hanging around this town on a corner  
I been bumming around this old town for  
way, way, way, way, way too long  
way, way, way, way, too long  
way, way, way, way too long  
way, way, way, way, too long

## Acordes
