

# Counting Crows - Omaha

Tom: **D**

Tab submitted by: Digs -

There are a few tabs of this song on the web but none of them have the intro transcribed properly. Although the Intro: is played on an accordion (I think) the tab below sounds correct on the guitar. You will have to finger pick the intro to get it to sound a bit tricky to play but it adds a bit of class to the song when you play it.

The rhythm is easy to pick up if you listen to the song but if you have any questions e-mail me

Standard tuning.
