

## **Course Of Nature - Gone**

```
Tom: E
  F
I'm sad when I'm gone
But I'm leaving again
What do you think?
Could you even care?
I tried to be strong
But I wanna cry
Dbm
So I hold you close
As I say goodbye
And I'm sorry I won't be
Dbm
With you tonight
When you close your eyes
      Ε
And I feel so guilty
Dbm
                          Ē
          В
                               Gbm
As I walk away from you again
You know that I want the best for you
                         Dbm
And I hope that you will write
If I had it my way
I could be with you tonight
I am coming home to you
I can finally see the light
And if I should make it through
                    Ε
I will be with you tonight
To have and to hold
Protect and provide
All you should need
I won't deny
And I need to see
That smile on your face
Dbm
The look in your eyes
It takes me away
```
