

Covenhoven - Young At Heart

Tom: **D**

Intro: **D G**
D

I've always been young at heart

Right from the very start

Dreaming of where wild things are

And hitching my wagon to stars

I'm pinching my hands 'til I'm sure that I'm still alive

Watching the sand slip through my fingers, I've been **(A)**

Abandoning safe bets for fleeting highs

Hoping the ocean won't take what's materialized too soon

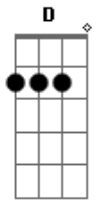

I've always been an old soul

Empty has always been full

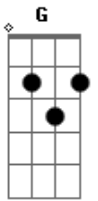

Lost is my own kind of found

And silence, my favorite sound
