

Crash Boom Bang - Forever In Love

tom:
Capostrate na 4ª casa

Can i tell you how much that i really love you girl?
If the answer's yes i'll tell you and the entire world
That if i had anything to do with it
You would come down to dc to be with me

Or i could sail right through the skies cool air
'cuz the windy city has the wind to bring me there
We'll pack our bags and leave this town
And we'll go somewhere where no one will bring us down
We'll be forever in love

Can i tell you how much that i really miss you girl?
And i haven't been myself lately and that's for sure
And if i had anything to do with it

I would be right by your side tonight
I could sail right through the skies cool air
'cuz the windy city has the wind to bring me there
We'll pack our bags and leave this town
And we'll go somewhere where no one will bring us down
We'll be forever in love

Take my hands and we'll be on our way soon
Take a look into my eyes; i love you
You're the one that i dream of
We'll be forever in love

Can i tell you how much that i really need you girl?
You're my everything, my only love in the world
And if i had anything to do with it
We would spend our lives together, forever
