

Crash Boom Bang - Forever In Love

tom:
 Capotraste na 4ª casa

Can i tell you how much that i really love you girl?
 If the answer's yes i'll tell you and the entire world
 That if i had anything to do with it
 You would come down to dc to be with me

Or i could sail right through the skies cool air
 'cuz the windy city has the wind to bring me there
 We'll pack our bags and leave this town
 And we'll go somewhere where no one will bring us down
 We'll be forever in love

Can i tell you how much that i really miss you girl?
 And i haven't been myself lately and that's for sure
 And if i had anything to do with it

I would be right by your side tonight
 I could sail right through the skies cool air
 'cuz the windy city has the wind to bring me there
 We'll pack our bags and leave this town
 And we'll go somewhere where no one will bring us down
 We'll be forever in love

Take my hands and we'll be on our way soon
 Take a look into my eyes; i love you
 You're the one that i dream of
 We'll be forever in love

Can i tell you how much that i really need you girl?
 You're my everything, my only love in the world
 And if i had anything to do with it
 We would spend our lives together, forever
