

# Crazy Ex-Girlfriend - You Stupid Bitch

Intro: Eb G7 C Tom:

Well rebecca, you've done it now  
 Karma's come to tap you on the shoulder  
 All that lying that's been festering  
 Plus breaking and entering  
 Is coming now to crush you like a boulder

You ruined everything  
 You stupid bitch  
 You ruined everything  
 You stupid, stupid bitch  
 You're just a lying little bitch  
 Who ruins things and wants the world to burn  
 Bitch. you're a stupid bitch  
 And lose some weight  
 I was so close to paradise

But now the only thing i'm close to is defeat  
 These shards are a metaphor for my soul  
 Won't stop the self-pity 'cause i'm on a roll  
 Yes josh completes me, but how can that be  
 When there's no me left to complete?  
 You ruined everything  
 You stupid bitch  
 You ruined everything  
 You stupid, stupid bitch  
 You're just a poopy little slut who doesn't think  
 And deceives the people she loves  
 Now he knows i'm not some innocent lamb  
 He sees me for what i am  
 Which is a horrible, stupid, dumb and ugly  
 Fat and stupid, simple, self-hating  
 Bitch
