             D
Hello, my friend, we meet again
                                     Bm
It's been awhile, where should we begin?
         G
Feels like forever

      D
Within my heart are memories
                             Bm
Of perfect love that you gave to me
         G
Oh, I remember

            D
When you are with me
      A         Bm            G
I'm free, I'm careless, I believe
            D              A
Above all the others, we'll fly
        Bm            G
This brings tears to my eyes
            D        Bm      G
My sacrifice

        D
We've seen our share of ups and downs
                             Bm
Oh, how quickly life can turn around
       G
In an instant

       D
It feels so good to reunite
                             Bm
Within yourself and within your mind
               G
Let's find peace there

                      D
