```
Comin' down on a sunny day
Intro:
                                                             Yesterday and days before
                                                             Sun is cold and rain is hard
 Someone told me long ago
There's a calm before the storm
                                                             I know, it's been that way for all my time
I know, it's been coming for some time When it's over so we say
                                                             Till forever on it goes
It'll rain a sunny day
                                                             Through the circle fast and slow
   G
I know, shinin' down like water
                                                             I know, and it can't stop I wonder
