

Crosby & Nash - Lay Me Down

```
Lay me down, lay me down
                tom:
                Ab (forma dos acordes no tom de A )
                Afinação: Eb Ab Db Gb Bb Eb
                                                                  Maybe I'll be whole again
                                                                   A C Em
Lay me down, lay me down
Intro: Em A C G
       A G C
        Em A C G
A G C Em
                                                                  A C Em Maybe I'll be whole again
Driving out through the windmills
                                                                   Somewhere between heaven and hell
G D A
And some of them were still
                                                                    G D
                                                                   A soul knows where it's been
Sometimes it's hard to catch the wind
                                                                   I want to feel my spirit lifted up
And bend it to your will
                                                                   And catch my breath again
( Em )
                                                                   Lay me down in the river
Even though it's hard to know G D A
                                                                   And wash this place away
                                                                   Em A C
                                                                   Break me down like sand from a stone
Just how the story ends
                                                                       A G C
The road is long and it takes its time
                                                                   Maybe I'll be whole again one day
On that you can depend
                                                                   Lay me down, lay me down
[Refrão]
                                                                   Maybe I'll be whole again
                                                                   A C Em
Lay me down in the river
           G C
                                                                                       C Em
                                                                   Maybe I'll be whole again
And wash this place away
                                                                   A C Em
Lay me down, lay me down
Em A C
Break me down like sand from a stone
A G C Em
Maybe I'll be whole again one day
                                                                  Maybe I'll be whole again one day
