

Crowded House - She Called Up

Tom: Eb

She called up
 And gave me the news
 It made me so sad, sad
 There was nothing I could do

She's too far away
 And you had to leave
 I can never repay you now
 For what you gave to me

A whisper that could blow a chasm wide
 It took us all
 It took us all
 Pushed apart the mountains and the tide
 It took us all

She called up
 And gave me the news
 It made me so sad, sad, sad
 There was nothing I could do

I was so lost
 In delirious sleep
 I wasn't prepared for that position
 And maybe I was naïve

But truth is a mortal blow
 You know all there is to know
 The hurt that you have so close
 Is something better now

La la la la la la la la
 La la la la
 La la la la
 La la la la la la la la
 La la la la
 La la la la

She called up
 And gave me the news
 It made me so sad, sad, sad
 There was nothing I could do
 She's too far away
 And you had to leave
 I can never repay you now
 For what you gave to me

For what you gave to me
 She called up
 She called up
 She called up
 She called up
 And gave me the news
