

# Crywolf - The Hunger In Your Haunt

tom:

Intro: Am C Am C

I saw  
 In the corner of your smile  
 There's been a darkness there a while  
 You know  
 When the breezes of this storm surely blow  
 We will watch it from our houses  
 Watch it from our houses in the snow  
 Where are all the things

That you have toiled all your life for?  
 Was it me you wanted when you said you  
 Wanted something more than what you knew?  
 What you knew  
 Cause I felt love in a different place and I  
 Felt you move in a different way and  
 All my life's been a whisper without you  
 I've been alone in a million places and  
 I've seen God in some dirty faces and  
 All that I could think about was you
