                                                               Me ahogo en un lago de mis lagrimas que hago
Oye cariño solo pienso en ti

When I wake up in the morning until I go back to sleep

                                                               And I hope you know I miss you from my head I can't dismiss
Lost in the words that you say to me y

I found my perfect girl I want to make you my queen
                                                               Sabes bien que te quiero and if you down to spend your summer
                                                               with me just let me know
Time and time again I can be feeling real sad
                                                                Eb Dm Cm Bb
                                                                You know you are my sueño you came to life and now I feel
cuz mi sueño no se ha hecho una realidad
                                                               alright
Pero el tiempo dirá el tiempo dirá
                                                               Eb
                                                               Dreaming of you when I'm alone
If we can spend our life together en lo que el mundo gira
                                                                Baby don't trip I'm coming home
I promise I don't want nobody else to be around me but you and kick it with me I don't care if the sun is gone
nobody's touch and nobody lips can make me feel like yours do
                                                               Baby don't cry when I'm gone
Our hands in a lock nuestros labios se conocen
                                                               promise you are everything I want
Nuestra noche es corta pero hermosa it will be okay
                                                               This is for you baby listen it's your song
