Tell me what do you do at the end of the song
when the lights turn on and everybody is gone
go out and grab a bite to eat and maybe go to sleep
but all those pussy's man they're only the weak
because we keep it goin till about 6 in the mornin
and I can bring you along
but you gotta, no you gotta keep it strong.

What you think its a joke but I got the rye and coke
and last call is long gone but I'm still drinkin and
smokin kron on
the roof top in a low key spot
bikini tops with tequila shots
theres no lines oh every time that you try to get in
with your honey's and your friends to spend some money
and then
your movin around quick because you don't know what to
do
and as the moon fades today you go away but you will
be back soon
you know why cause its the room of the faded moon.

The only cops that show up are corrupt
and they get so drunk that they don't give a fuck
so gamble your money till you run outa luck
and drink from the bar till you go and throw up
yeah the only cops that show up are corrupt

and we pay them off to keep their mouths shut
so gamble your money till you run outa luck
and drink from the bar till you go and throw up.

and you think its a lie but theres no reason why I
should try to hide my bet in the game of roulette
rollin 4 5 6 in a row in C-Lo
you know you never gonna win big when you bettin so
low
so K O in the mornin but you don't wake up till later
in the afternoon
so take your pre sips and eat the fish off your dish
and you gonna come back soon to the room of the faded
moon

its the room of the faded moon
and everybody gotta come back soon

well the only cops that show up are corrupt
and they get so drunk that they don't give a fuck
so gamble your money till you run outa luck
and drink from the bar till you go and throw up
yeah the only cops that show up are corrupt
and we pay them off to keep their mouths shut
so gamble your money till you run outa luck
and drink from the bar till you go and throw up.

Cause its the room of the faded moon

Why can't you see its the place to be
I know that you know its the place to go
and I'll see you there ya you know where yeah
