

Current Swell - Up The Hills

Tom: **G**

G **Em** (sétima casa) **Bm**

G **Em**
I can feel it coming But I don't know why
Bm
All the people running Up the hills to hide
G **Em**
All the while nothing Is gonna go save their lives
Bm
But when you got nothing, you got everything, that's right

G **Em**
The sky went black Middle of the day
Bm
The river ran red and went the other way
G
They say it was hard to take it in
Em
They say it was hard to take it in
Bm
Watching everything get blown again
Bm
Watching everything get blown again

G
We can't find a way to get help to you
Em
But we can fly a man and land him on the moon
Bm
Drop of a hat let's go to war
Bm
7 years later don't even know what for
G
Your little black book won't help you now
Em
But you still got your good old friend denial
Bm
Your good old friend denial
Bm
Your good old, good old, good old, good old

G
I can feel it coming
Em

But I don't know why
Bm
All the people running
Bm
Up the hills to hide

G **Em** **Bm**
Water keep on rising and it won't be coming down
G **Em** **Bm**
Masses keep on climbing in the search of higher ground
G
In the end you don't need much
Em
In the end no we don't need much
Bm
The tops of the hills were left untouched
Bm
The tops of the hills were left untouched

G
We can't find a way to get help to you
Em
But we can fly a man and land him on the moon
Bm
Drop of a hat let's go to war
Bm
7 years later don't even know what for
G
Your little black book won't help you now
Em
But you still got your good old friend denial
Bm
Your good old friend denial
Bm
Your good old, good old, good old, good old

G
Cause I can feel it coming
Em
I just don't know why
Bm
All the people running
Bm
Way Up the hills to hide
