

# Cyndi Lauper - Water's Edge

Tom: A  
Intro: A A E E Gbm Gbm D D Gbm Gbm E

I went to the water's edge

Forgot I couldn't swim

I went to the water's edge

All ready to jump in

I saw the water shimmer

I heard the wind howl

I saw my own reflection

I just can't see it now

You say it's the way of the world

To somehow co exists

That eventually life unfurls

A path to happiness

So I whisper your little secret

And repeat it under my breath

I'll save it for you in my heart

In case we both forget

Refrão

Oh, I wish you could wrap yourself around me

I am gripped by a loneliness

Oh, I wish you could wrap yourself around me

I'd be released in your tenderness

I'd be released in your tenderness

I went to the water's edge

And saw my life eclipse

I went to the water's edge

And then felt myself slip

I dreamed that I was floating

Just coast until I grew fins

I want to catch this tide back home

And feel you again

Refrão

Oh, I wish you could wrap yourself around me

I am gripped by a loneliness

Oh, I wish you could wrap yourself around me

I'd be released in your tenderness

Oh, I wish you could wrap yourself around me

I am gripped by a loneliness

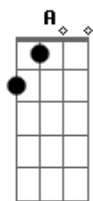

Oh, I wish you could wrap yourself around me

I'd be released in your tenderness

I'd be released in your tenderness

I'd be released in your tenderness
