

Daði Freyr - Every Moment Is Christmas With You

tom:
 Capostraste na 3ª casa
 Intro: C Am F G

It's a cold December night
 The snow is so romantic
 Under this blanket, there is room for two

We sit together watching Home Alone
 For the hundredth time

Wow, it's so Christmassy
 Everywhere I look
 And this gluhwein won't
 Just drink itself

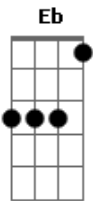

Everything is lit up by candlelight

But all of this means so little to me

Compared to if you would be
 Always here by my side 'cause
 Every moment is like Christmas with you

I don't understand
 What all that fuss is about
 We don't have to do anything

I don't need those boxes under the tree
 You are the only thing I need

Because all of this means so little to me

Compared to if you would be

Always here by my side 'cause
 Every moment is like Christmas with you

Every moment is Christmas with you
